Summary

Computer Science Student with a passion for solving complex problems and creative ideas. Striving for challenging impactful projects and benefits ideas.

Experience

Data Analyst
Udacity
Jan 2021 - Present (6 months +)
In this internship, I have learned the basics of data analysis and data science. I am now in the second level (Professional Track) and dealing with python and use some analysis techniques.

Junior Software Developer
Minia University
Mar 2021 - Present (4 months +)
I have worked with a team from my faculty as a website designer and make some documentations for this website. It serves the Healthcare fields. And it helps the patient and doctors equally.

Full Stack Web Developer
Information Technology Institute (ITI)
May 2020 - Jul 2020 (3 months)
I have worked on this project from a to z and finished it as required, from the documentation process (analysis and planning) to design and finally to implementation using PHP and Laravel framework.

Education

Minia University
Ba, Computer and Information Sciences
2017 - 2021
I am still a student at the faculty of computers and information sciences
I am good at the English language.
I am an ITI Internship trainer and student before
I am a student at nan-degree (FWD).

Udacity
Nanodegree, Data Science
2021 - Present
Data Analysis Professional Track
